Digital pH Meter

DPH-2
Cat.No.4320

- Automatic Temperature Compensation!
- Waterproof design!
- Compact & portable design!

- Sturdy body design for electrode-protection
- Electrode can be cleaned with tap water
  (Use of deionized water will damage the electrode.)

## Specifications
- **Measurement range**: 0.0 to 14.0pH
- **Resolution**: 0.1pH
- **Measurement accuracy**: ±0.1pH (2.0 to 12.0pH)
- **Temperature compensation range**: 0 to 50˚C
- **Temperature compensation**: Automatic
- **Calibration**: 3-points (4.0, 7.0, and 10.0)
- **Power supply**: watch battery (LR44) 1.4V×4
- **Materials in contact with solution**: Main body-ABS resin/Electrode-PBT resin
- **International Protection class**: IP67
- **Dimensions & weight**: 4.5×3.0×16.3cm, 90g

## Food and beverage production control
- Brewing, fermentation, and food process control
- Soil-based agriculture and hydroponics
- Cutting oils, alkaline washing liquids
- pH levels of fruit juices
- Quality control for aquacultures and aquariums
- pH levels of boiler liquids
- pH levels of alkaline liquid
- Other soluble solutions

## Applications

- Easy one-handed operation

All ATAGO products are designed and manufactured in Japan.
